Did you know?????

- ◆ The first day of Spring is called the Vernal Equinox. Vernal is Latin for Spring. Equinox is Latin for Equal Days.
- ◆ Common spring flowers are lilacs, daffodils, irises, tulips, lilies, and dandelions.
- ◆ Before Spring was called Spring, it was called Lent in Old English. Starting in the 14th century, that time of year was called “springing time”—a reference to plants “springing” from the ground. In the 15th century this got shortened to “spring-time,” and then further shortened in the 16th century to just “spring.”
- ◆ Persephone was the Greek goddess of spring. She spent winters as Queen of the Underworld but returned in spring to preside over rebirth.
- ◆ Spring fever is a term applied to several sets of physical and psychological symptoms associated with the arrival of spring. Experts say the body’s makeup changes due to different diets, hormone production, temperature and increased light.
