

OCTOBER 1, 2018

# IT'S FALL Y'ALL

So many great things happen in the fall. The temperatures begin to cool off.  
The leaves begin to change color. Corn mazes open.  
The smell of pumpkin is EVERYWHERE!!!!  
It's also the time for cold weather prep. Here are some handy tips:

- \* Remove the water hose from the spigot and store for the winter.
- \* Don't waste your time with raking leaves, mow over them to create a mulch.
  - \* Cover or store your outdoor furniture to keep it from fading
  - \* Change the filter in the house
- \* When the furnace is turned on, the dust burns off and releases an odor. It is normal for dust to burn off when the heater is turned on for the first time in the winter season and not a cause for concern. This smell should disappear in a few hours. If the problem persists, check your air filters.
  - \* Prepare now by getting your ice melt and snow shovel

# HALLOWEEN

**The end of the month means Trick or Treaters. Here are some things to keep in mind to keep everyone safe.**

- ⚡ Drivers! Watch for children walking on streets, medians and curbs. Excited kids, often in dark costumes, may cross between parked cars.
- ⚡ Remember that if you plan on handing out candy, turn on your outdoor light. If you do not want any visitors, make sure your light is off or post a sign that says "No candy that this residence."
- ⚡ Want an alternate treat besides candy? Check out these options:
